

eSignal 12.7 NEW chart time frames

234 minute chart of Crude Oil, set for alignment with 1 Day, 2 Day and 3 Day charts on Multi Time frame Trigger Tool.

eSignal released a new version 12.7 recently. The new version allows plotting charts for 2 Days, 3 Days or 2 weeks, 3 weeks, 2 months , 3 months etc. (Previously only 1 Day charts was possible with next higher time frame to be 1 week, 1 month etc.)

This works brilliantly with our tools. Our Multi Time Frame Tool works brilliantly on an *Intraday* chart (for example the 234 minute chart of Crude oil) with setting for alignment on the 1 Day, 2 Day and 3 Day time frames.

This means you can trade any *Intraday* chart time frame in ALIGNMENT with the longer more reliable 1 Day, 2 Day and 3 Day time frame charts, a very powerful concept.

See example above.

You can download the new eSignal 12.7 here:
